

CAVANS FUND

HOW YOU CAN HELP...

CAVAN IS ONE IN 400 BILLION!!! - That is 60 times the world population!!!

Cavan is a baby boy from Burnley, Lancashire.

He has HEMIMELIA– A rare congenital limb deficiency that affects all his limbs. He will undergo many years of reconstructive surgery never performed before, with uncertain outcomes - alongside amputation. He will need specialist care at various centres throughout the UK with a special eye kept on him from the surgeons in Germany and the USA.

There is not a registered charity for Hemimelia.

He will require prosthetic (false) limbs, expensive equipment and adapted housing that are not available from the NHS or local government. He is too young to claim financial help with mobility needs and he needs your help...

You can help by donating any amount, the monies raised will be used to fund fitting and costs with his prosthetics, new equipment, meet care needs during surgery and aid housing needs and adaptations.

THANKYOU FROM THE BOTTOM OF OUR HEARTS AND-
